

Grandma's Letter

Dear Grandma,

It has been a little crazy since you have left to live in heaven. We have had tons of loved ones come over, and they have brought tons of food.

Grandma, I know that it was the best thing for you to go live in heaven with Grandpa, because that is what God wanted. Grandma I totally know that you are in the most wonderful place ever and you are loving every minute of it!

Grandma I have so many memories of you and I together that I have been thinking a lot about. I remember the summer I was in the Sound of Music when I practically lived with you, because my mom got her tonsils taken out. I remember you taught me the thing that you loved, and it was to cook and bake. I remember learning how to cook all of the things that I loved to eat at your house. Grandma I know that it was such an honor for you to be able to teach me something that meant so much to you, and this was something that I enjoy doing! I also remember when you paid for all of my friends and I to go to Charm School, and learn all sorts of fun things! Another thing that I remember is on the Disney Cruise we went to learn how to decorate a plate together! GRANDMA THOSE THINGS AND TIMES WERE JUST THE BEST!

Grandma I will never forget any of those memories! Grandma I want you to know that I will make you proud in all that I do. One thing that you always told me was that you never lived with regrets and I know today that you went to heaven with no regrets! Grandma since you always told me that, I have chosen to live a life like yours with no regrets.

Grandma I love you so much I can't even explain!!!!!!!!!!!!!! The thing that makes me totally sad is that Mary Esther never knew you the way I got to know you, and also David, Luke, and John Paul. Grandma because of that I will always let them know and tell them how much you loved them and tell them everything I know and everything about you! I will do my absolute best! Also, I will totally miss you tons on the day I get my drivers license because I remember you taking me around in Florida and teaching me how to drive. Also I will miss you and think

about you on the day I graduate from South Adams High School and also from college. One other special day that I will totally miss you on is the day I get married and then the day that I have my kids.

Grandma because of you I will always bake and cook. I will always play golf and tennis, because I know I how much you loved to watch me! Grandma I love you so much!!!

The last few days that I spent with you were just the best and I loved every minute of them!! Grandma I love and I will always make you proud!

Will love you forever!!!! xoxoxoxo

With Love,

*Sarah
